**Amendments to the Specification**:

Please amend the following portions of the Specification as follows:

1.  Please amend the Specification, at page 16 lines 3-4, as follows:

    The status reflected by the master view 317 does <u>not</u> necessarily correspond with the status of the last client to experience a status change.

2.  Please amend the Specification, at page 16 lines 5-6, as follows:

    Each client in this embodiment has a client view that is associated with each client: view 315 is associated with client 303 and view 316 is associated with client [[306]] <u>304</u>.
